

The **new standard** in business identity

Middesk is the easiest way to verify the legitimacy of any business. Our data infrastructure allows high-growth businesses to manage risk and compliance at scale, with minimal friction.

We provide companies with the tools they need to make **fast, informed decisions** on how to best engage with their customers.

Banking

Simplify the process of opening commercial bank accounts

Lending

Accelerate the process for businesses to access capital

DATA DONE DIFFERENTLY

Direct access to federal, state, and county sources provides **100% coverage of registered businesses.**

Built on our own data infrastructure, Middesk provides complete and up-to-date data on every registered business across the United States.
